Bachelor of Computer Science

Universiti Sains Malaysia (USM)

2016 – 2020

CGPA: 3.22

STPM

SMJK Sin Min

2014 – 2015

CGPA: 3.59

PROJECTS

Sentiment Analysis of Book Reviews (Final Year Project) (2019 – 2020)

- A web application built with Laravel to analyse book reviews from Goodreads and understand how people think about a particular book. In this system, sentiment analysis is used to analyse reviews into positive, negative and neutral while emotion detection is performed as well to detect the four basic feelings such as happy, sad, worry and angry from the book reviews.
